STAND UP PADDLE

In surfing's new twist, you go with the flow standing up, adding a little Zen to the workout. For those that are not familiar with the sport, stand-up paddling entails standing on a longboard and propelling yourself with an elongated canoe paddle. Stand-up-paddling is a great way to improve your core strength and balance, making it an ideal cross-training activity.

All sessions take place at Windsure-1300 Discovery St. Vancouver, BC
